## University Favorites

Top video resources used in teacher preparation courses

### Methods

#### The Anatomy of Student Engagement

Designing lessons that truly engage students requires thoughtful planning. Through this powerful set of videos, you can show your student teachers what engagement really means and what it looks like in action.

#### Assessment for Learning

This practical video series was created to delve into the subject of formative assessment. Make sure your student teachers understand the importance of using formative assessment as a tool for learning and designing instruction that is responsive to students' needs.

#### Classroom Lessons Un-narrated

Educational Impact's extensive library of classroom videos is now available to educators without narration or commentary. Clips can be used in so many ways...show them in class, ask your students to find examples of key strategies and discuss what's happening in each classroom.

### Education Psychology

#### Project Based Learning: Constructivist Classrooms

Critical thinking and problem solving skills are needed by our 21st century learners. Through this video series, learn how to get started with PBL and examine real classroom examples.

#### Help for Billy: Trauma-informed Interventions

Help for Billy is an important video program that provides critical insight into children impacted by trauma. Based on the neuroscience of emotions and behavior, Heather T. Forbes, LCSW provides key strategies for trauma-informed intervention in schools.

# Student Teacher Placement / Supervision

## Mentoring and Coaching: The Journey of a First Year Teacher

Critical thinking and problem solving skills are needed by our 21st century learners. Through this video series, learn how to get started with PBL and examine real classroom examples.

## Taking the Guesswork out of the edTPA Assessment

This program will show teacher candidates what the edTPA process looks like in action. Watch videos of real classroom teaching mixed with subject matter experts providing insight.

## Teacher Evaluation Using the Danielson Framework

Combining detailed commentary from Charlotte Danielson with practice observations of teachers, this video program is used to teach the art and science of teacher evaluation. Build the foundation skills and ensure all evaluators determine levels of performance based on evidence.

## Teacher Evaluation Practice Center - Calibration Activities for Classroom Observers

This is a great way to build inter-rater reliability among your Practicum Supervisors and Mentor Teachers. Watch real classroom videos, gather evidence as you watch and compare your notes and levels of performance with your peers

## Educational Foundations

## The Inclusion Breakthrough

This video program outlines the history of inclusion and uses classroom examples to illustrate how to collaborate in planning lessons, how to group students and how to use a "team teaching" approach.

## Special Education Law

These videos are an essential part of any special education course for undergrad and graduate students. Observe 12 common scenarios that all involve aspects of special education law. Then learn from the analysis provided by a special education law subject matter expert.
